#### Crimes Decrease

Prohibition is bringing a wonderful change for the better at Kansas City. The police department blotter reveals some interesting 100 00 down in the damp days before July

Arrests for drunkenness now are only one-twelfth as great as those soo recorded before the war-time pro-500 hibition became effective. The 10 00 city's "North End," which former-10 00 ly abounded with derelicts either 91 52 steering unsteady courses through the steets and byways, or who had me is floundered altogether, especially on 511 19 Saturday night, is now becoming a well-ordered community. The old 6) 75 haunts, dispensing only a weak mm imitation of beer and in exceptional cases "hard liquor," seem almost 450 ghost-like in their darkened desolation.

Twelfth street, Kansas City's narrow "white way" in the old M 72 days, seldom went to bed at all.

Midnight now finds most of the lights shining-but little else. The few people who are met are those returning from the city's amusement and outing parks, and most everyone has the air of a person seeking the home plate.

Free-for-all street fighting and wife beating seem to have gone out of vogue when liquor made its forced exit. Chief of Police Scott A. Godley believes petty crime will be reduced nearly half.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.
